## Weekend Challenge 39

(To be attempted by an Individual or Group of 2 max.)

You're the CEO of Urban Kitchen, a hypothetical startup in the B2B space in the restaurant industry.

You plan to help the owners/managers manage their restaurants better by

1. Optimising the bandwidth of the waiting staff, thus improving the [Time per Table Turnaround](#)
2. Providing rich analytics to the restaurant owner

### Problem Statement :

1. Come up with the logic for assigning staff in real-time to the tables.
  - a. Hint: Think of a restaurant with X tables and Y waiters
2. Come up with the wireframes for the Table Management portal along with an Analytics Dashboard
3. How will you monetise this product?
